

In summer

as well as in winter...

A modern soul in a heart of tradition.

First opened in 1834, Les Sources des Alpes is a unique Hotel. Each of our suites, junior suites and rooms have a balcony or terrace offering an idyllic view on the village or the hotel garden.

We have everything you have been looking for!

Leukerbad is a village brimming with traditions, history, and natural resources!

The thermal water of Leukerbad rises up to 3000 meters above sea level, then comes down to approximately 500 meters below sea level to then finally rise to the surface surrounding the whole village. The water is fed from underground wells for around 40 years, becoming rich in minerals and trace elements from the mountains, before arriving in our swimming pools.

From the mountains to the sea

Phytomer goes beyond the borders of traditional cosmetics and introduces a new generation of professional care: more effective, more sensual and more eco-friendly. Come and enjoy the benefits of 40 years of expertise in marine biotechnology.

La Malvoisie – a fine dining experience

Discover and enjoy the creations of our young chef with his contemporary and generous cuisine. We are proud to say, that in each of our dishes as well as our wine card, the best of our regional products are well represented.

Bar – La Barrique

Alexandre Dumas, Léon Tolstoy as well as Charlie Chaplin have enjoyed our great selection of wine, whiskies and cocktails in front of our cozy fireplace. Now it's your turn!

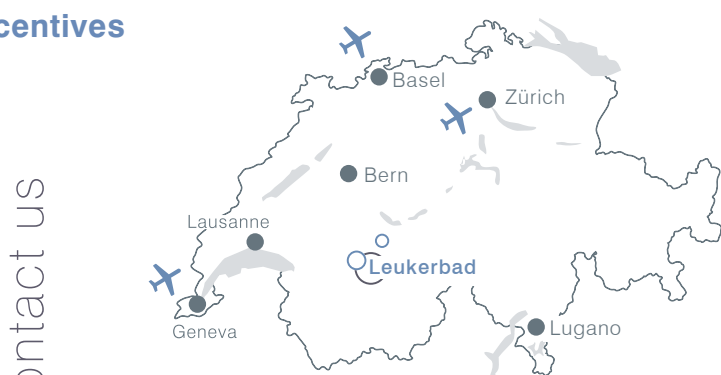

The wine cellar

The actual wine cellar previously was the kitchen area. It is now the ideal place to age the best local and international wines with over 450 labels. Private wine tasting or romantic dinners can take place directly in the cellar... a must see!

Perfect for team building • board meetings • incentives

- YOU WILL GET
- A personal contact dedicated to the success of your event
 - Personalized help with the organization of your event (transfers, incentive organization, material renting)
 - The Relais & Chateaux philosophy for a high quality and lasting standard of service
